They related that McCOY had brown hair. They recalled that some brown hair was found on the back of the seat in which the UNSUB sat. [redacted] was advised that this hair was very likely in possession of Las Vegas. He advised that he would obtain a sample of McCOY's hair and have Las Vegas forward the sample they have to the Bureau for comparison. They also mentioned that since there were some smudges of fingerprints found in the plane by Las Vegas, they would have the Bureau examine them and compare them with McCOY's fingerprints to see if identifiable.

SUBJECT: NORJAK

On 4/19/72 SAC CALAME called from Salt Lake City.

He advised that they had been unable to establish the whereabouts of RICHARD FLOYD McCOY on 11/24/71, the day of the hijacking. They have noted that gas purchases were made with his credit card at Provo, Utah; Cedar City, Utah -and at Las Vegas, Nevada, for his automobile on 11/25/71, the last one being made at Las Vegas, Nevada, some time between 11:00 PM on 11/25/71, and 9:00 AM on 11/26/71. Further, McCOY and [redacted] are inveterate users of credit cards, purchasing meals and other small items on credit cards, but they have been unable to locate any purchases on the credit cards for 11/24/71.

b6
b7C

A long distance telephone call was made from a public phone in the Tropicana Motel at Las Vegas to McCOY's home in Provo collect on 11/25/71. I suggested to them that they have Las Vegas find out who made the call since the Telephone Company maintains records on the identity of the caller.

They advised that [redacted] when shown the photograph of the necktie and tie clip found in the Northwest Airlines plane related that he had seen McCOY wear similar ties. In addition, he said the tie clasp looks familiar but he cannot say for sure if McCOY had one exactly like it.

b6
b7C

During the conversation SAC CALAME suggested, and I agree, that we should check with the Army at Fort Lewis and at McChord AFB to see if McCOY could have made any flights on a military plane arriving at McChord or Fort Lewis on November 22, 23 or 24, 1971, or made any flight from there on those dates or November 25 or 26, 1971.

b6
b7C

In addition, steps should be initiated at once through the appropriate airline to determine if McCOY using the name R. McCOY, RICHARD FLOYD McCOY, D. COOPER, DAN COOPER or J. JOHNSON, made any flights from either Seattle or Portland to San Francisco, Los Angeles, or Las Vegas subsequent to 8:15 PM on 11/24/71. This should be done at once.

Dear General Bolling :

With the completion of the search of the area near Ariel, Washington, by units of the 3rd Air Cavalry, I wanted to write to you personally and tell you first how much we appreciate the services rendered. However, in doing this I would be most remiss if we did not also tell you that the services of your officers and men were magnificent. The organizational structure, the equipment provided, and most important of all the direction given to the operation under [redacted]

[redacted] was most impressive.

The assistance rendered by [redacted] and [redacted] was in keeping with the highest traditions of the U. S. Army.

I could go on at greater length and identify specifically the individual officers, as well as the non-commissioned officers and men, but time and space do not permit.

I do hope, however, that through your channels you will see fit to insure that this letter of appreciation and commendation is recorded in appropriate files to provide credit to the splendid men who have served so well.

Sincerely yours,

For consideration of the Bureau, it is noted that the Nation of Liberia, in Africa, utilizes as its legal tender currency of the United States. It would appear that any person wishing to exchange a quantity of U. S. currency in such a manner as to avoid connection with a crime through identifiable funds could do so there with a minimum of exposure. Accordingly, it is suggested the Bureau may wish to disseminate the ransom money list in this matter to appropriate Liberian authorities through liaison channels.

RE: REWARD

At approximately 10:15 AM, on 4/26/72, a male who did not identify himself, telephonically contacted the office to inquire as to any reward being offered for the money paid in the hijack of NW Airline Flight #305.

He was informed that the POST INTELLIGENCER has a \$5,000 reward as part of their "Secret Witness" program.

The caller, who appeared to be a young coherent man, said he wondered if there would be any reward in addition to that \$5,000 for the return of the money asking whether or not insurance company's who insure such large sums don't automatically pay a 10% reward of any money returned. He was advised that if he could provide information which would assist in identifying and locating the hijacker that although the writer could make no promises of any reward, it was indicated that there was a good possibility that it would be worth more than the PIs \$5,000. The caller stated that he had been told by a friend whom he refused to identify that a short time after the hijacking, this person allegedly saw a parachute in the trees and the caller indicated that it was an area where there was lots of snow.

The writer asked the caller if he would like to have some help. I asked him if I should bring a shovel. He answered that I might need a shovel to bury the hijacker, if he is still hanging in the trees; however, he further refused any help.

The caller did not saw when the information was received or from whom. Attempts were made to have him come to the Seattle Office and give us the information he says he possesses and let us make the search but he said he would either check it out first himself, after consulting a friend of his, who is apparently privy to the same

RE: REWARD

At approximately 10:15 AM, on 4/26/72, a male who did not identify himself, telephonically contacted the office to inquire as to any reward being offered for the money paid in the hijack of NW Airline Flight #305.

He was informed that the POST INTELLIGENCER has a \$5,000 reward as part of their "Secret Witness" program.

The caller, who appeared to be a young coherent man, said he wondered if there would be any reward in addition to that \$5,000 for the return of the money asking whether or not insurance company's who insure such large sums don't automatically pay a 10% reward of any money returned. He was advised that if he could provide information which would assist in identifying and locating the hijacker that although the writer could make no promises of any reward, it was indicated that there was a good possibility that it would be worth more than the PIs \$5,000. The caller stated that he had been told by a friend whom he refused to identify that a short time after the hijacking, this person allegedly saw a parachute in the trees and the caller indicated that it was an area where there was lots of snow.

The writer asked the caller if he would like to have some help. I asked him if I should bring a shovel. He answered that I might need a shovel to bury the hijacker, if he is still hanging in the trees; however, he further refused any help.

The caller did not saw when the information was received or from whom. Attempts were made to have him come to the Seattle Office and give us the information he says he possesses and let us make the search but he said he would either check it out first himself, after consulting a friend of his, who is apparently privy to the same

[redacted] Las Vegas, Nevada,
on April 18, 1972, located a carbon copy and two carbons
utilized in the preparation of a sales invoice number 764637
for the purchase of 5.6 gallons on gasoline with total charges
of \$2.57.

This invoice was charged to RICHARD F. MC COY, JR.,
Bank Americard Number 4763 160 217 773 and bore the signa-
ture of MC COY.

The invoice carried the machine date of November
25, 1972, but had the written date of November 26, 1971.
The license number listed on the carbon copy of the invoice
appeared to be SA 1334 and the carbon utilized for the
preparation of these invoices had the additional notations
"No. Carol", however the above writing was not readily
discernible on the written carbon copy of the invoice.

[redacted] explained that the discrepancy of the
dates could be explained by virtue of the fact that his
station operated on a 24 hour basis with shifts running
from 7:00am to 3:00pm, from 3:00pm to 11:00pm and from
11:00pm to 7:00am. He stated that in view of the fact
November 25, 1971, was a holiday, he did not personally
work that day and as a result, the machine date of November
25, would not have been changed to November 27, 1971, until
9:00am on November 26, when he visited the station to
correlate the receipts for the holiday.

b6

[redacted] further noted that in all possibility,
the employee handling the actual transaction was on duty
from 11:00pm, November 25, to 7:00am, November 26, and
therefore entered the date as November 26, which would have
been his regular work day and the machine date would not

[redacted] noted further that in view of their location as the last station prior to the southbound entry onto Interstate 15 or conversely the first station for anyone approaching Las Vegas on the freeway from the south, their business is evenly divided between traffic heading for Los Angeles who wish to gas up prior to their entry into the desert or are the initial contact for vehicles coming into from the desert area who are nearly out of gasoline.

[redacted] noted that three copies of the Bank Americard invoice would have been prepared with the original copy being furnished to MC COY at the time of the purchase, a second copy being retained by him and the final copy going to Bank Americard Company for charges to be paid at a later date. On April 13, 1972, [redacted]
[redacted] Westward Ho Motel, Las Vegas, Nevada, was contacted. [redacted] stated that telephone number 043-2378 is a guest billing telephone number for the Westward Ho Motel, and the last three digits 378 indicate that this billing was assigned to room number 378. [redacted] subsequently caused the records of the Westward Ho Motel to be checked for November 2, 1971, for room 378, and developed the following information.

b6
b7C

RICHARD MC COY, 360 South 200 East, Provo, Utah, registered in at 5:22 PM on November 2, 1971, with five in the party. MC COY checked out of the motel on November 3, 1971. MC COY signed the guest registration with the name RICHARD F. MC COY, JR. There is no automobile indicated on the guest registration card. A review of the folio under number 186797 reflects that no outgoing telephone calls were made from room 378 during the period it was occupied by the MC COY party.

It is noted that both the registration card and the folio are numbered the same, that is 186797.

[redacted] will retain the original guest registration card and folio until so advised they are no longer needed by the FBI.

Mrs. GENEVA BREWER, located at the Wayside Camping area, Cliviston, Florida, April 13, 1972, in company of her husband, CLAYTON BREWER, was advised of the identity of JOHN S. ATMAYER as a Special Agent of the Federal Bureau of Investigation and the purpose of the interview and of the fact that any information furnished could be used in a court of law.

Mrs. BREWER advised that she and her husband reside at 3321 Chapin Street, Erie, Pennsylvania, and that they plan to return to that area approximately in June, 1972. She stated that she and Mr. BREWER [redacted] Wisconsin, and while she has not seen [redacted] since February, 1971, they are in frequent telephone contact and also write to each other frequently.

Mrs. BREWER stated that in conversing with [redacted] by telephone recently, they had briefly discussed a recent hijacking in which the subject used the name of D. B. COOPER and that this had been the source of some amusement to she and Mr. BREWER, as they had known a D. B. COOPER some years ago in Erie, Pennsylvania, and that a song has been written concerning this particular hijacking and that hearing the song, she and her husband had humorously recalled the D. B. COOPER they had known for many years in Erie and who, as stated, has been dead for a long time. Mrs. BREWER stated that in telephone conversations recently with [redacted] she had jokingly referred to the song about the hijacking and D. B. COOPER.

Mrs. BREWER stated that she and Mr. BREWER are both retired since 1958, and that Mr. BREWER had worked for Hammermill-Bond Paper Company in Erie for forty years and that they spend a great deal of time travelling about the United States in their camper. Mrs. BREWER stated that she has absolutely no information concerning the hijacking or the person responsible for the hijacking.

AT TAHLEQUAH, OKLAHOMA

On 4/4/72, [REDACTED] National Director of the U. S. Parachute Association and Assistant Director of the World Parachute Meet, Tahlequah, advised he is well familiar with the description and the artist's conception photo of the subject, due to publication in parachute magazines and the skyjacking being the topic among many skydivers. [REDACTED] advised it is his opinion from the information he has read in newspapers that the skyjacker might possibly be a smoke jumper or military jumper, as opposed to a sports skydiver in that the subject apparently jumped under circumstances which were very adverse to a successful landing.

[REDACTED] advised that he will be alert for the possibility of anyone matching the subject's description jumping in either the world meet or in the national meet, both to be held at Tahlequah during the summer of 1972; and if he comes across anyone similar to the subject, he will immediately contact the FBI.

Re "Seattle Flag" 5/10/72.

A review of the article concerning D.B. COOPER appearing in the May 10 issue of the "Seattle Flag" reveals the following discrepancies between the article and the actual hijacking:

1. In the article, the interviewee states he sat in seat 15 D, whereas the hijacker actually sat in seat 18 E.
2. The interviewee in the article states that he landed over 100 miles away from Southwest Washington. This would be in conflict with the indications of the test flight run by Northwest Airlines.
3. The interviewee states that he knew that with down flaps the stalling speed of the 727 was 109 miles per hour. This information would not appear to be known at Northwest Airlines, as there was some question at their office the night of the hijacking as to whether or not the plane could fly with 15 degree flaps.
4. In the article, the interviewee states one of the reasons he selected a 727 was because the lavatories in the rear were a handy place to hold a stewardess hostage, wich turned out to be right. In another place the interviewee states he held stewardess hostage part of the time behind the rear galley curtain and part of the time in the toilet. This is not true, inasmuch as the hijacker did not hold the stewardess hostage in either of these locations.

5. The interviewee in the article states that he knows the bills were xeroxed before they were delivered to him, as he could smell the xerox fluid on them at the time they were delivered. This is in error, inasmuch as the bills were not xeroxed, and if they had been, would not have a smell of xerox fluid.

6. The interviewee in the article states that the bomb which he allegedly had consisted of five Gillette shaving cream cans painted red and rigged with prima cord fuses. This would disagree with the stewardesses description of the cylinders which she observed in the briefcase, inasmuch as they were smaller in diameter than shaving cream cans.

7. In the article at one place the interviewee states concerning payment by the airline "why risk four lives - not including mine - and a 5 million dollar airplane for a mere \$200,000?" This would appear to indicate that the person being interviewed felt that the passengers had been released before the money was paid, whereas the money was delivered to the hijacker before the passengers were released.

8. In the article, the interviewee states that he told the pilot "let the passengers off but I want everybody in the cockpit and the other two stews to stay on the plane." This appears to be inaccurate, inasmuch as the hijacker did not demand that the stewardesses remain on the plane.

9. The interviewee in the article says that he was in the cockpit twice, once when they were having fueling troubles and at this time, he told the pilot "I want the flaps at 15 percent and the gear down." He states that after discussion with the pilot concerning the destination of the plane he slammed the cockpit door and went back to the tourist compartment with the stewardess. This is inaccurate, inasmuch as the hijacker at no time was in the cockpit to the aircraft and was not observed by the flight crew in the cockpit and instructions concerning destinations were relayed through the stewardess.

10. The interviewee states that he selected the name D.B. COOPER by sticking a pin in the Seattle telephone directory. This is inaccurate, inasmuch as the hijacker when purchasing his ticket, in fact used the name DAN COOPER instead of D. B. COOPER.

11. The interviewee in the article states the note he gave to the stewardess read, "I'm hijacking this aircraft. Relay instructions to the ground that I want \$200,000 in 20s and two parachutes delivered to me when the plane lands. I have a bomb." Stewardess [redacted] states that the note which she received read, "Miss I have a bomb hear and would like you to sit by me." He later had her take down a note which he dictated reading "I want \$200,000 by 5:00 p.m. in cash. Put it in a knapsack. I want two back parachutes and two front parachutes. When we land I want the fuel truck ready to refuel. No funny stuff or I'll do the job."

b6
b7C

12. In the article the interviewee talks about two parachutes, one back pack and one chest pack and states that he did not leave any parachute on the plane; however, cut the chest pack into strips to use to tie the money to him. This is inaccurate, inasmuch as four parachutes were delivered and one parachute intact and one with shroud lines cut were located on the plane when it arrived in Reno.

13. The interviewee in the article states that after they were airborne, he took the stewardess forward and over the intercom told SCOTT, the pilot to hold the plane at 7,000 feet and 200 miles per hour. This is inaccurate, inasmuch as the hijacker told [redacted] to go forward to the cabin and relayed no further instructions to the pilot.

b6
b7C

14. The interviewee in the article states that pilot SCOTT tried to humor him with a steady line of chatter over the passenger PA system and he told the crew, "nobody under any circumstances is to attempt any further contact with me." Although there was little attempt by the crew to contact the hijacker no instruction of this type was relayed by the crew.

RE: UNSUB; SEATTLE FLAG PUBLICATION, 5/10/72

On May 1, 1972, I called SA HENRY SCHULTZ at the Bureau and told him that we had received information from the news media wherein the Seattle Flag, an underground newspaper in Seattle, had a headline article which would be on the street on May 2, 1972, reportedly containing an interview with the hijacker and displaying a copy of the bill, serial number of which coincided with one of the hijacked bills.

I told him that a very quick look at the article showed substantial discrepancies. In addition, we were checking the microfilm of the hijacked bills to see if it coincided with the bill reportedly in the newspaper and I would let him know.

RE: UNSUB;
"SEATTLE FLAG" DATED 5/10/72

Re Seattle teletype to Bureau 5/1/72; Seattle teletype to Alexandria and WFO dated 5/2/72 and WFO teletype dated 5/3/72 to the Bureau and Seattle.

Enclosed for the FBI Laboratory is one reel of microfilm which was prepared in connection with the \$200,000 ransom money which eventually was paid to the hijacker in captioned case.

The above referenced Seattle teletype to Alexandria advised that a copy of the "SEATTLE FLAG" publication dated 5/10/72, was being sent to Alexandria and then to the Bureau via WFO. It is noted that on Page 2 of the "SEATTLE FLAG" there appears a reproduction of a \$20 bill which allegedly bears serial number L 51279635 A, which is a serial number of one of the ransom bills.

REQUEST OF BUREAU

1. Compare the \$20 bill appearing on the microfilm with the reproduction in the "SEATTLE FLAG" to determine whether or not it is authentic and thereafter advise Seattle.

The bill itself has been located on the microfilm and has been marked with a small piece of paper on the film itself. The approximate location of that bill on the film is approximately at the arrow which has been Scotch taped to the outside of the reel.

2. In connection with the examination conducted by the Laboratory 4/28/72, to determine the authenticity of three \$20 bills, the Seattle Office marked the location of those bills on the film with a small piece of adhesive paper provided by the Federal Reserve Bank, whose machine was used to review the film. It is now noted that these pieces of paper (3), are difficult to remove and some of the adhesive remains when the paper is taken off.

The Bureau is therefore requested, while the film is at the Laboratory, to endeavor to remove these three markers from the film. If it is felt necessary that the locations of those bills should be made on the film, the Laboratory might place a marker on the left side of the film where it does not cover the bill.

A sample of the adhesive paper is being furnished with the film so that the Laboratory might know the type of adhesive on this paper.

I know a man who looks very much like the first composite drawing of the plane hijacker "Cooper" appearing in the paper last fall.

He quit his job in Puget Sound Navy Yard about this time, bought a new Datsun station wagon. He pays support money to two ex-wives for four children and is living with another woman.

He is a sky diver and has chutes of his own. Am told he recently had contact with some underworld characters in California, is talking of moving to Fiji to live.

More recent, he started a bike business in the University District somewhere with a business promotion of some sort which keeps him in touch with the underworld, I am told.

This young man is light complected. The woman he lives with is a beautician and could very easily dye and bleach his hair in a short while. He lives in a house owned by a [] who lives nearby on Long Lake out of Port Orchard, Wash.

b6
b7c

His name is [] The woman he lives with is [] [] is supposed to be financing a movie business in California and other deals.

Would someone take this money off his hands and keep it for a while for a good part of it? Otherwise where does he get all this prosperity?

He also has a partner in this business, whose name I do not know. But had nothing to begin with either, so the story goes.

I know a man who looks very much like the first composite drawing of the plane hijacker "Cooper" appearing in the paper last fall.

He quit his job in Puget Sound Navy Yard about this time, bought a new Datsun station wagon. He pays support money to two ex-wives for four children and is living with another woman.

He is a sky diver and has chutes of his own. Am told ~~he recently~~ had contact with some underworld characters in California, is talking of moving to Fiji to live.

More recent, he started a bike business in the University District somewhere with a business promotion of some sort which keeps him in touch with the underworld, I am told.

This young man is light complected. The woman he lives with is a beautician and could very easily dye and bleach his hair in a short while. He lives in a house owned by a [] who lives nearby on Long Lake out of Port Orchard, Wash.

K4 One roll of microfilm of ransom money (Resubmission)

Specimen received 5/3/72, from FBI, Washington Field Office:

Q48 One copy of Seattle Flag newspaper, Volume 1, #5, May 10, 1972, bearing on page 2 a photograph of twenty-dollar bill, serial #L 51279635A

Result of examination:

The twenty-dollar bill appearing on page 2 of Q48 was compared with the corresponding bill represented by K4. In the comparison, a photographic overlay of the Q48 bill showed the serial number on this bill to be out of register with the serial number on the K4 bill.

The examination definitely determined that the Q48 bill is not a part of the ransom money.

The submitted evidence is temporarily retained.

in SKAMANIA COUNTY.*

On 5/30/72, SA [] called from Stevenson, Washington. He advised that one [] had found what appeared to be the remnants of a parachute which had been burned at a location 18 miles east of the Merwyn Dam in Skamania County. There does not appear to be any of the cloth left, only the harness. I told him to get ahold of [] at once, take him to the site, interview him in detail, and let me know what he found out. He described the specific location at Township 8, North Range, 6 East, Section 10, S.W. corner on Western Air Search and Rescue Map, #364, Section C.

RE: PARACHUTE FOUND IN SKAMANIA COUNTY

[redacted] called from the Bureau. He said that Asst. Director BATES and [redacted] were extremely interested in our teletype about the parachute and wanted us to consider a further search in the area; consider sending material to the Laboratory and also to show the material we found to the person we got the chutes from.

b6
b7C

I told [redacted] that we would certainly do whatever is necessary to either establish or eliminate this as the one used in the crime, as soon as possible.

b6
b7C

I called [redacted] He said that 41 miles east of Woodland on the Lewis River Road and 7 miles north of the Lewis River Ranger Station, on an unapproved highway, is an informal camp ground used by many hikers, hunters and fishermen and this is where the straps were found. They were found on 5/28/72 by a camper. The two pieces in [redacted] possession are each about 20" long, 1 3/4" wide, greyish-green in color, made of webbing with some kind of plastic material on the back. Each piece had been burned on each end. One of the pieces has the number 12345 on the back. They were found in the remains of an old fire, partially concealed through the natural accumulation of dirt, pine needles, etc. They were actually found by a woman scrapping around in the ground trying to find a place for a sleeping bag.

b6
b7C

The third piece which [redacted] does not yet have, but which he will get this morning, allegedly has a name on the back -- EISNER Company, 1/52, and number 5010857.

b6
b7C

I requested [redacted] to get that piece as soon as possible; to bring them all to Seattle; take them out and show them to COSEY, the man who owned the parachute. He said he should be here in Seattle sometime early this afternoon.

SEARCH OF THE AREA WHERE ORIGINAL PARACHUTE REMNANT WAS DISCOVERED BY [REDACTED] REVEALED ADDITIONAL PIECES OF PARACHUTE HARNESS. ALL OF THESE REMNANTS WERE EXAMINED TODAY BY EARL J. COSSEY, MASTER PARACHUTE RIGGER, WHO PERSONNALLY MADE UP ALL FOUR OF THE PARACHUTES FURNISHED TO THE HIJACKER IN THIS CASE. HE STATED THE REMNANTS DEFINITELY ARE NOT FROM ANY OF THE CHUTES HE PREPARED. THIS ELIMINATION IS BASED ON THE FACT THAT THE STRAPS ARE A DIFFERENT COLOR; THAT ONE OF THE STRAPS HAS HAD A PIECE HAND SEWN TO EXTEND THE LENGTH OF THE STRAP AND FURTHER THAT THE HARNESS IS EQUIPPED WITH A "CAPEWELL" QUICK RELEASE DEVICE, WHICH WAS NOT ON EITHER OF THE BACK PACKS FURNISHED TO THE HIJACKER.

On 4/19/72 SAC CALAME called from Salt Lake City.

He advised that they had been unable to establish the whereabouts of RICHARD FLOYD McCOY on 11/24/71, the day of the hijacking. They have noted that gas purchases were made with his credit card at Provo, Utah; Cedar City, Utah -and at Las Vegas, Nevada, for his automobile on 11/25/71, the last one being made at Las Vegas, Nevada, some time between 11:00 PM on 11/25/71, and 9:00 AM on 11/26/71. Further, McCOY and his wife are inveterate users of credit cards, purchasing meals and other small items on credit cards, but they have been unable to locate any purchases on the credit cards for 11/24/71.

A long distance telephone call was made from a public phone in the Tropicana Motel at Las Vegas to McCOY's home in Provo collect on 11/25/71. I suggested to them that they have Las Vegas find out who made the call since the Telephone Company maintains records on the identity of the caller.

They advised that [redacted] when shown the photograph of the necktie and tie clip found in the Northwest Airlines plane related that he had seen McCOY wear similar ties. In addition, he said the tie clasp looks familiar but he cannot say for sure if McCOY had one exactly like it.

During the conversation SAC CALAME suggested, and I agree, that we should check with the Army at Fort Lewis and at McChord AFB to see if McCOY could have made any flights on a military plane arriving at McChord or Fort Lewis on November 22, 23 or 24, 1971, or made any flight from there on those dates or November 25 or 26, 1971.

In addition, steps should be initiated at once through the appropriate airline to determine if McCOY using the name R. McCOY, RICHARD FLOYD McCOY, D. COOPER, DAN COOPER or J. JOHNSON, made any flights from either Seattle or Portland to San Francisco, Los Angeles, or Las Vegas subsequent to 8:15 PM on 11/24/71. This should be done at once.

Re Bureau airtel 5/17/72.

Pursuant to instructions contained in referenced airtel, an extensive file review of captioned case was conducted. Among the files reviewed were the main volumes, numbered 1 through 47, sub-files designated for particular areas of interest, i.e., Parachutes, Witnesses, Course, 1-A volumes and numerous suspect files. In addition, an examination was made of all physical evidence being maintained at Seattle, for pertinent investigative leads.

As a result of this review, the following suggestions are being proposed:

REWARD: This case has generated world-wide attention and many suspects have been suggested and are continuing to be received. However, since nothing of value has yet been developed, it is felt that the prospect of a substantial reward for information leading to the identification and conviction of this hijacker, might entice someone to come forward and name the hijacker.

To be realistic, the reward would have to be attractive to the person furnishing the information and therefore, a sum of not less than \$25,000 is recommended.

The reward money could be provided either by the Department of Justice, or by the airlines, or by both. The only reward at the moment is \$5,000, offered by the Seattle, Washington newspaper SEATTLE POST INTELLIGENCER "Secret Witness Program."

SAFE DEPOSIT BOXES: Since nothing was found in the search conducted by the Army in March and April, 1972 of the probable drop area in southwestern Washington, it now appears quite possible that the hijacker escaped safely and might have secreted the money in a safe deposit box.

It is recommended that nation-wide circularization be made of all banks, savings and loan associations and commercial companies offering this type security. Each such location would be furnished with a description of the subject and the artist's conception showing the hijacker with and without the glasses.

THE BOEING COMPANY: In 1963-1964, The Boeing Company had a team of 20 to 30 engineers and test pilots experimenting with the air stairs of The Boeing 727 to determine the plane's adaptability for dropping cargo or personnel. In the tests conducted the air stairs were removed and packages were dropped from the plane using an especially designed chute. [REDACTED]

b7E

The Boeing Company has furnished the names of their employees who were involved in that experiment and investigation is being conducted to determine if one of these could be the hijacker. They are also being interviewed for any info they may have as to the identity of the hijacker.

Seattle is continuing to screen suspects in this matter, which are received from various sources and will give expedite attention to any worthwhile information obtained.

ARMED AND DANGEROUS.

[REDACTED]
April 12, 1972

J. Edgar Hoover, Director
F.B.I.
Washington, D.C.

Honorable Sir:

Shortly after 6:30 P.M. on April 10 I placed a long distance call to the Regional Office of the F.B.I. in Portland. The call was answered by a [REDACTED] who turned the call over to a [REDACTED] after I had stated my reasons for placing the call.

Briefly, [REDACTED]
[REDACTED] on the Oregon Coast I recently (Mar 23), [REDACTED] to a certain party and this subsequent actions have raised doubts in my mind.

(1). He carried on his person a large sum of money-all in \$20⁰⁰ bills.

(2). Each time he made a purchase - no matter how small-such as 2 packages of cigarettes (70¢) it was with a \$20⁰⁰ bill and he never spent the change or smaller bills. Each purchase was paid with a "new" \$20⁰⁰ bill and the pattern was repeated again.

(3) He did not want to be alone and, if he could, would get me or someone else to make his purchases with one of his \$20⁰⁰ bills.

(4) Sometime between the evening hours March 31 and the morning hours of April 1, he moved all his possessions [redacted] and has not been seen on the property since.

b6

I thought nothing of the fact he was "missing" over the weekend as many visitors to the area, also permanent residents, will take weekend side trips.

I checked [redacted] April 4 and found [redacted]
[redacted]

b6
b7C

(5) Yesterday, or rather the afternoon of April 10, I learned he had claimed to be a paratrooper during the Korean conflict.

(6) "D.B. Cooper" who hi-jacked a plane in Portland last Thanksgiving, demanded - and got - \$200,000⁰⁰ in \$20⁰⁰ bills.

It may only be a coincidence, but his physical description could fit "D.B."

(7) It is puzzling why anyone would pay [redacted]
[redacted]

b6

Mr. Hoover, I requested [redacted] to have an agent contact me April 11, before I [redacted]
[redacted] I live on [redacted]
[redacted] is marked with the [redacted]
and I instructed [redacted] as to mile posts, landmarks, etc. [redacted] is approximately [redacted] of Portland via hiway - [redacted]

b6
b7C

Needless to say, after staying home all day, no agent called, and, incidently the Newport airport is [redacted]
[redacted]
Portland or vice versa. Your agent has my telephone number - [redacted]
[redacted]

b6
b7C

I figured I was acting like a "good citizen" when unrelated incidents started to fit together, however, I didn't even get a telephone call, saying when they would call.

Personally, I'm getting too old to care very much what happens any more - I can't afford a plane trip so I'll have to forego the dubious pleasure of being, on a hijacked plane, and if the F.B.I. doesn't care, why should I?

Sincerely,

SUBJECT: NORJAK

On May 10, 1972, Mr. VERNER WEINZ, 1401 S. 12th, Mount Vernon, Washington, was contacted by the writer in response to a phone call he made to the Everett Resident Agency concerning captioned matter. Mr. WEINZ indicated that he worked for the Skagit County Sheriff's Office as a deputy for five years about 20 years ago, and would have come forward with information sooner if he had not developed such a distrust for the American Court System. He recently saw an article in the Seattle Times, which indicated that the Air Transport Association of America would pay up to \$250,000 for information leading to the arrest and conviction of persons committing airborne crimes. Mr. WEINZ indicated that he is a businessman and felt that he could furnish some information concerning this hijacking if the reward was high enough. X

Mr. WEINZ indicated that an individual he has known for several years, came to his home in Mount Vernon several weeks before the hijacking. He indicated that he and friends were going to pull a big deal with a take of \$200,000. He said it would be the greatest news event in the northwest and would make all of the papers. His partner remained outside in the car while WEINZ spoke with his friend. Mr. WEINZ said he would furnish no other information until he was told how much reward he would get.

On May 10, 1972, SA CHARLES E. FARRELL was contacted by the writer regarding the above information. He indicated that the reward for information leading to the arrest and conviction of the subject is \$5,000.

On May 11, 1972, Mr. VERNER WEINZ was again contacted at his home in Mount Vernon by the writer. He immediately inquired as to the amount of the reward and was given a figure of \$5,000. Mr. WEINZ laughed and said he would furnish the information for no less than \$50,000 and would have to have a majority of that amount in his possession before he would furnish any names. WEINZ did agree to furnish additional details concerning his conversation with the friend.

He advised that in November 1971, approximately 3 weeks before the hijacking, his friend stopped by the house. The friend indicated that a big deal had been set up two weeks prior, but was cancelled because of bad weather. He said there were three individuals involved and they needed one more. He indicated that one partner had backed out of the deal, and they needed a replacement. The friend indicated the group would make \$200,000 and that this would be the biggest deal ever pulled in the northwest. As he left, he said, "You will read about this in all of the papers." He gave no details and never mentioned airplanes or hijacking. He stayed at the home approximately 1 1/2 hours, but said nothing specific about the type of job he had planned. On a previous contact the friend asked WEINZ if he would ever consider a job outside the law. WEINZ told him that he needed work and would consider anything. WEINZ further stated that there was a second man waiting for his friend in the car. He did not get a good look at him, but assumed he would be the man known as "D.B. Cooper". His friend is a large man, and in no way, fits the description of the hijacker.

Mr. WEINZ again stated that he would furnish no other information and would furnish no names, unless he is insured of at least \$50,000. He said that the more he thinks it over, the more he thinks the information is worth at least \$100,000.

WEINZ is a white male, American, born May 24, 1911, 6'2", 210 pounds, gray hair, blue eyes.

On May 11, 1972, this matter was discussed with Sheriff JOHN BOYINGTON, Skagit County Sheriff's Office, Mount Vernon, Washington. BOYINGTON advised that he has known WEINZ for many years and served with the sheriff's office at the same time as WEINZ. He indicated that WEINZ was in the pinball machine business for several years before the state clamped down on the business. He has many contacts outside the law and has the ability to obtain information about crimes. In most instances, his information is fairly accurate. BOYINGTON stated that WEINZ is in desperate need of money and would furnish information if even a small amount were offered to him. He also stated that WEINZ drinks too much at times and tends to become loud and boasts. He can be a very dangerous man at most times and is very strong.

No further investigation being conducted, unless requested by case agent.
